

Jenny Zhang, Factory Search Manager, NCAB Group China, conducting a sustainability audit at the Jove Yiangmen factory.

Sustainability and responsibility as a business concept

A seminar about sustainability

Sustainability and responsibility as part of business concept

**NCAB Group and FIBS invites you to a sustainability seminar in Helsinki 9.2.2017
at Business Meeting Park- Forum**

Sustainability and responsibility has become major factors that drive profitability. How to take these aspects into consideration in your business?

Welcome to learn about how two companies, ABB and NCAB Group, in the electronics industry have set up and implemented a strategy for sustainability. You will obtain an understanding of the factors that drives sustainability. You will get tips about what kind of activities are recommended to perform in the beginning and how to run a sustainable business.

AGENDA

08:00 – 09:00	Breakfast
09:00 – 12:00	Seminar (including 20 min coffee break)
12:00 – 13:00	Lunch and networking

SPEAKERS

Why is it important to add sustainability as part of a business concept today

Mikko Routti, CEO FIBS

Sustainability in the electronics industry, large company's approach

Hannu Rintala, Head of occupational health - ABB Group
& HSE and Security manager - ABB Finland

Sustainability in the electronics industry, smaller company's approach, inspired by ISO 26000
