

CAM PCB Engineer // DEVIZES, WILTSHIRE, UK

NCAB Group is a global leader in the Printed Circuit Board (PCB) industry, selling over 110 million PCBs yearly from 14 different countries. We are now looking for a **CAM PCB Engineer to our Divizes office in Wiltshire, UK** who wants to join us in becoming *The Number 1 PCB Producer – wherever we are.*

This permanent role has come about due to progressive growth and expansion of our company. CAM Engineer sought is part of a global operation offering training and development and long term job security.

DUTIES WILL INCLUDE BUT ARE NOT LIMITED TO:

- Advising on PCB specifications and design
- PCB CAM Engineering role is required to have several years proven experience of working with Gerber data and PCB manufacturing knowledge.
It is essential to have solid experience of PCB Based CAM software ie. Valor Genesis 2000 / CAM 350 & with the ability to read complex drawings and validate customer specifications.
- Liaise with customer on all aspects of the PCB Specifications design and prioritise all customer enquiries
- Working with Technical/Engineering Managers and Sales to maximise margins and review opportunities and sending them to manufacture.
- Assisted customer visits
- Advise customers on their needs and offer full service eg. Cost cutting

REQUIRED EXPERIENCE & KEY SKILLS:

- Strong commercial awareness
- Strong customer service skills
- Experience of working within a team
- Able to work under pressure in a very fast paced environment to tight deadlines
- Excellent organisational and planning skills
- The ability to be trained on local management tools and bespoke systems
- Strong communication skills
- Strong work ethic
- A confident and professional telephone manner
- Timekeeping – critical
