

## REACH Compliance Statement

April 2026

The REACH Regulation (EC) No 1907/2006 aims to protect human health and the environment from risks associated with chemicals.

### Scope

NCAB Group supplies Printed Circuit Boards (PCBs) and acts as an importer and supplier of articles under REACH. The PCBs supplied are classified as articles.

### Substances of Very High Concern (SVHC) – Candidate List

This declaration is based on the ECHA SVHC Candidate List updated on **4 February 2026 (253 substances)**.

Based on information from our supply chain and to the best of our knowledge, PCBs supplied by NCAB do not contain Substances of Very High Concern (SVHCs) above 0.1% (w/w).

### Exceptions (by design or customer specification):

- PCBs with leaded HASL surface finish may contain lead above 0.1% (w/w).
- PCBs manufactured with laminates containing Decabromodiphenyl Ethane (DBDPE) may contain DBDPE above 0.1% (w/w).  
DBDPE is a commonly used brominated flame retardant in high-performance PCB laminates.

No substances in PCBs supplied by NCAB are intended to be released under normal or reasonably foreseeable conditions of use.

### Annex XIV and XVII

To the best of our knowledge, PCBs supplied by NCAB do not require authorisation under Annex XIV and comply with applicable restrictions in Annex XVII.

This statement reflects current knowledge based on available information and may be updated as regulatory requirements or supply chain information change.

Sundbyberg, April 2026

Peter Kruk, CEO, NCAB Group
